LITTELL'S LIVING AGE,

E. LITTELL & Co., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but while thus extending his scope and gathering a greater and more attractive variety, is able so to increase the solid and substantial part of his literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the busy and industrious Literary Gazette, the sensible and comprehensive Britannia, the sober and respectable Christian Observer; these are intermixed with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thunder of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, with all parts of the world; so that much more than ever it now becomes every intelligent American to be informed of the condition and changes of foreign countries. And this not only because of their nearer connection with ourselves, but because the nations seem to be hastening, through a rapid process of change, to some new state of things, which the merely political prophet cannot compute or foresee.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, afford favorite matter for its selections; and, in general, the editor will systematically and very fully acquaint his readers with the great department of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who wish to keep themselves informed of the rapid progress of the movement—to Statesmen, Divines, Lawyers, and Physicians—to men of business and men of leisure—it will be found to be equally attractive and useful to their wives and children. It is indispensable to every well-informed family. We say indispensable, because in this day of cheap literature it is not possible to guard against the influx of what is bad in taste and vicious in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By so winnowing the wheat from the chaff, by providing abundantly for the imagination, and by a large collection of Biography, Voyages and Travels, History, and more solid matter, a work as produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & CO., Boston, who supply orders by mail from all parts of the country. Remittances by letter to them, and they will send the work to that amount. Each number makes a handsome pamphlet of 48 pages double col. octavo. Price 12 1-2 cents, or by the year, six dollars. We add to the above commendation a letter from the late President J. Q. Adams:—

WASHINGTON, 27th December, 1845.

Of all the Periodical Journals devoted to Literature and Science which abound in Europe and this country, this has appeared to me to be the most useful. It contains indeed the exposition only of the current literature of the English language, but this by its immense extent and comprehension includes a portraiture of the human mind in the utmost expansion of the present age.

Consumption is the great curse of our northern latitude. It is the blight of domestic felicity and the despoiler of beauty. It robs the cheek of its healthful bloom, the mind of its serenity, and the eye of its brilliancy. It wastes the form, dims the intellect, and plunges its victim into an early grave. The young and old, the serious and the gay, the city belle and the country lass, are alike its prey and its victims. Blessings on the memory of those whose genius and research furnish us the weapons to bid defiance to this "Dweller of the Threshold!" He merits the applause and gratitude of ages—he shall have ours, at least.

WRIGHT'S INDIAN VEGETABLE PILLS SECURE FROM FROST.—The Proprietor of this popular Family Medicine, thankful for the extensive and increasing favor with which it is received, and feeling desirous of making every improvement in his power, begs leave to announce, that he has added an OUTSIDE FROSTING to the pills, of pure White Sugar, whereby everything disagreeable to the taste or smell is entirely removed, without in the smallest degree affecting, in other respects, the excellent qualities of the medicine—that is made of an innocent and convenient form of dispensing the Pills, so generally felt, is thus supplied, and it is confidently anticipated that the frosting will prove highly acceptable to the public. The occasional use of medicine is a matter of necessity with the great majority of mankind. Whatever, therefore, is done to remove its disagreeable associations, is a public benefit. The value of Wright's Indian Vegetable Pills is well understood. Innocent and efficacious, free from mercurials of every description, and adapted to all the circumstances and conditions of life, they are esteemed beyond all other remedies, as the great family medicine of the day. The frostings is [illegible] merely to cover [illegible] [illegible] [illegible] be procured without the frosting, as heretofore, so that all who prefer them in their original state, may still be accommodated.

PROFESSOR A. C. BARRY'S

TRICOPHEROUS OR MEDICATED COMPOUND,

INVALUABLE for renewing, invigorating, and beautifying the Hair, removing Scurf, Dandruff, and all affections of the Scalp, and curing Eruptions on the Skin, Diseases of the Glands, Muscles, and Integuments, and relieving Stings, Cuts, Bruises, Sprains, &c., &c. With this preparation, "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, concur with one accord, that, for imparting vigor, gloss, luxuriance, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article, have enabled the inventor to supply it at retail at twenty-five cents per bottle, which is from fifty to one hundred per cent. less than the price of any other preparation now in use. The scientific treatise on the hair and skin (embracing valuable directions for the culture and preservation of Nature's choicest ornament,) in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin, and the hair which draws its sustenance from this triple envelope, is very close.—All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with moisture and impart life to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness, and harshness of the ligaments, and entire baldness as the case may be. Stimulate the skin into healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin and of the substrata of muscle and integuments, the process and the effect are the same.—It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injuries of these organs, it is a sovereign remedy.

Sold in large bottles, price 25 cents—at the Principal Office, 137 Broadway, New York. For sale by the principal Merchants and Druggists throughout the United States and Canadas, and by R. J. TAYLOR, Newport, and J. Balch & Son, Providence, R. I. ap20 6m

GROUND STARCH—A SUPERIOR ARTICLE.

THE subscribers having been appointed Agents for the sale of *Conroy's superior Family Starch*, are now prepared to furnish Grocers and Families with this most valuable article, *warranted cheaper and superior to any other for family purposes.*

Being entirely free from all impurities, this Starch may be used with the utmost confidence in starching the finest Muslins and Laces.

The superior whiteness of this Starch and the smoothness with which it is used, render wholly unnecessary the use of Starch Polish or Spermaceti, as it produces a fine polish without gumming up or injuring the fabric, which is inevitable the case from the constant use of oily matter. It is also never unfavorably affected when clothes are exposed to frosty weather.

Also, a very fine article for Puddings, as families should be without this valuable article. Put up neatly in pound packages, and for sale at wholesale or retail, by BARBER & BOONE,

THE UNION

MUTUAL FIRE INSURANCE CO.,

CONCORD, N. H.

THIS Company was chartered in June, 1846, and went into operation in October following; since which, it has issued 3945 Policies, covering by insurance more than two and a half millions of property. The whole amount of property now at risk is $2,457,000.

The aggregate Capital of the Company amounts to $250,000.

In accordance with the provisions of their Charter, the Directors have divided the property at risk into the following FOUR CLASSES—each being liable for its own losses.

THE FARMERS' CLASS, which insures for six years, is composed entirely of Farmers' property, on which they have now issued $480,000.

VILLAGE CLASS, insures safe property in Towns and Villages, such as Dwelling Houses, their contents, out buildings, &c., for six years.—The amount now at risk in this class is $[illegible].

MERCANTILE CLASS, insures for three years, and is constituted of Stores, Merchandize, Public Houses, Churches, Printing Offices, &c. The amount of property now at risk in this class is $736,000.

MANUFACTURERS' CLASS. This Class is composed of most kinds of hazardous property, with the exception of steam risks—in which the amount insured is $[illegible].

The Company have, thus far, been very fortunate; the whole aggregate of losses in the three first classes combined, not amounting to $2,600 since the Company went into operation. They are now, and have been for several months past, issuing at the rate of 5600 Policies per annum.—Their capital is consequently rapidly increasing, and the Directors with confidence commend the Company to the public, as a medium of Insurance founded upon the most equitable principles, and promising the most favorable results.

The assessment was made the first of January, since which time, a large number of Policies have been issued.

The Daily News.

NEWPORT.

BY CRANSTON & NORMAN,

127 THAMES STREET.

THURSDAY MORNING, JUNE 27, 1850.

☞We are pleased to announce that Mr. H. F. Walling, of Providence, having been for some time engaged upon a very careful survey, for the purpose, is about to publish a large and accurate map of Newport town and county. All the roads are to be carefully laid down, from original survey, by course and distance, and every house located and designated with the name of the owner. The streams, ponds, mills, churches, schools, hotels and other objects of interest will be inserted in their proper places. The plan of the town of Newport will be upon an enlarged scale, so as to show every building. Views of some of the picturesque localities of our beautiful island will be engraved upon the map.—We understand that the draft is nearly completed, and will be ready for the engraver in two or three weeks. The engraving will be executed in the best manner, and the price will be so low that we hope most of our citizens will be induced to take a copy.

This map will be for sale by W. H. Peek, Col-umbi Row, Thames Street.

☞Benjamin's lecture was well attended Tuesday night, and all who heard it appear to be highly pleased. We learn that the Hall presented a very fine appearance, and that the Newport Brass Band discoursed excellent music. At the request of many, Mr Benjamin will repeat his poem, "The Age of Gold," at the Bellevue Hall, on the evening of the Fourth of July. He is making some additions to it, calculated for the occasion of Newport during the fashionable season.

☞The Boston Times, New Haven Register and Providence Herald are disputing as to the conduct of one Chauncey F. Cleveland, now a member of Congress, and Governor of Connecticut, in 1842, in protecting Thomas Wilson Dorr, a Traitor and refugee from justice from this State. Gentlemen, the game, all around, is not worth the ammunition.

☞Our friend Frank Foster has sold the little steamer "Swan;" she is to go to Central America.

☞Does not the editor of the Sunday Mercury know that there is *some* wisdom in the country as well as in New York?

day, there was only one solitary soldier of the battle present. The link will soon be broken.

Day Lines to Newport.—On the 29th inst. the steamboats Oregon and Niagara, both well known on the Hudson River, will be put on this route as day boats touching at Stonington. It is designed to maintain this line through the summer months. A train to connect with the boat will leave the Providence Railroad station for Boston at 8 1-2 o'clock in the morning, and the steamers will leave New York at 7 A. M. This will obviate one of the difficulties of getting to Newport.—*N. Y. Tribune.*

Philosophical happiness it to want little and to enjoy much; vulgar happiness is to want much and enjoy little.

A great many people like an "independent press," which always chimes exactly with their *own* opinions; but a truly honest press must differ from *somebody*.

Falstaff.—Mr. Giles, at the close of his lecture upon Falstaff, eloquently "points a moral," by the following picture of the last days of the fat, funny, and sack-loving old knight:

"What a mournful condition of humanity is presented to us in the debasement of talent to the appetites!—Behold it in the picture set before us in Falstaff. Look at that gray-headed, gray-bearded old man, *toiling*, bloated on the dregs of life; the desires insatiate as strength declines; the senses gross, while a brilliant imagination flows in radiance over them, as the sun [illegible] a morass; abilities which might [illegible] ired empires, devoted to the [illegible] apon, or the merits of a [illegible] ce and wit lavished upon sack posset: eloquence, law, honor, [illegible] ed upon blackguards, Laugh, courage, chastity, made a jest. [illegible] ce it is true, you must; but when you have laughed, turn back and think, and, after thinking, you will admit that tragedy itself has not anything more sad."

The first edition of Professor Stuart's defence of Mr. Webster—numbering three thousand copies—has been disposed of within a few days after its issue, and a new edition is in press.

LATER FROM EUROPE.

The steamer Niagara arrived at Halifax on Tuesday, bringing one week's later intelligence from Europe.

ROME.

Latest accounts from Rome state that the Pope is wholly absorbed in religious ceremonies, to the exclusion of all attention to his temporal government. The people are said to evince a very excited state of feeling, and that nothing but the presence of foreign troops restrains a popular demonstration against the Government.

THE DUCHIES.

The several proposals of the Schleswig deputies as the basis of negotiation have been published, but are considered wholly inadmissable. Baron Wyendorf has returned from Berlin to Warsaw, and the Emperor of Russia is said to have fully approved of all that has been done by Denmark, and unites with that cabinet in the opinion that if force alone is to solve the question, its adjustment must not be protracted.

The Holsteins have fired upon a Danish man-of-war cruising off the port of Hoilenshafin:

The head quarters of the Danish troops in Jutland is moved to Kolding. The Swedish neutral troops have received orders to be in readiness to march.

PRUSSIA.

The preparations for hostilities continue upon a great scale in Prussia. Still severer laws have been issued against the Press. The King seems to be fast recovering from his wounds.

The papers lodged by Goethe with the Government have been examined and a correspondence between Goethe and his brother poet, Schiller, has been found and will be published forthwith.

ENGLAND.

The debates in Parliament present few features of general interest beyond the fact, that ministers have been again beaten by a majority of thirty-two.

On Tuesday, Lord Wass, moved that the House should resolve itself into committee to consider the present mode of levying the duty on home-made spirits in Ireland. The Chancellor of the Exchequer resisted, and made the motion a government question. A discussion ensued. The House divided, and the Government were thoroughly beaten, the Chancellor protesting against the resolution. Sir George Grey has announced in the Commons, that it is the intention of the government to stop all Post Office labor on Sunday, and an inquiry was to take place to see if it be not practicable to stop the mails also on the Sabbath. This movement has met with no favor from the majority of the members.

A bill for the sale of the encumbered estates in Ireland has been introduced, and twice read in the House of Lords.—The object of the bill is to exempt from sale all estates not mortgaged to a certain amount, and fixing the minimum.

FRANCE.

In the Assembly, the bill for suppressing clubs and political bodies, has been voted for another year. The bill for legalizing the transportation of political offenders has been passed entire as the government presented it, exceptthe clause which gave it a retrospective effect. The bill granting pensions to those killed and wounded in the affairs of February and June, was rejected by a great majority. The reactionists then obtained a signal triumph. The bill granting pensions to the deserving of the working classes when infirmity overtakes them, was also passed by a full house.

The committee appointed to consider the proposed great increase in the salary of the President, have not recommended acquiescence in the demand. It is said, however, that the leaders of the majority intend voting for the bill, notwithstanding the decision of the committee. A sharp contest is therefore expected. The Mountains are indignant at the proposal, as they look upon them as being only the first of a series of movements having for their end the legalizing of a perpetual presidency in the person of Louis Napoleon, who has affected to take great offence at the hesitation evinced by the committee.

In a recent tour through the Provinces, the President was everywhere well received. His speeches are considered somewhat remarkable for their appeal to popularity among the working classes.

It appears that in framing the new electoral law, the President made a great blunder; he never intended, it is said, that the proposed changes should extend to the election of President as well as representatives; but it does so, and it is only now that he sees his mistake.

Another project of law for fettering the press with a heavier stamp duty is at present engaging the attention of Government.

M. Thiers has left Paris to visit Louis Philippe in England. The Ex-Minister [illegible] ed on Thursday and was well received arriv[illegible] plomatists and statesmen of St. by the c[illegible] James.

It is said that his v[illegible] has a deep political change in view. He had a[illegible] interview with the President before leaving Pa[illegible]is. A reconciliation of the two Houses of the Bourbons is said to be the object of M. Thiers' visit to the Ex-King, at London.

Smith O'Brien.—*His Inhuman Treatment.*—The Dublin Nation, of the 1st inst., appeals to Irishmen generally, Catholic and Protestant, those desiring Irish independence as well as those cherishing union with England, to interfere by remonstrance and save the life of the exiled Irish patriot, Smith O'Brien, who, the article says, is being slowly murdered at Maria Island. Its language is fervid and strong. It says:

"He is caged in the closest solitary confinement. His food scanty and loathsome. He has no comforts, no attendance. He never sees the face nor hears the voice of a friend. He is denied the common requisites of decency. For months he has not been allowed a change of raiment or permitted to change his dress.

"This will be questioned, disputed, disbelieved. No wonder; for it is monstrous and incredible. But we write every syllable of it on the authority of one incapable of falsehood or exaggeration as of murder. It is the literal truth.

"Nor is this the whole. In the foul den where he is thrust, like a chained reptile, one generous girl, of the age of ten years, daughter of the Governor, sought, with the instinctive charity of her sex, to solace the captive's care and lighten his suffering by kindly offices; and forwith, on pain of new privation, O'Brien was forbidden ever to speak to her again. He lost this innocent familiar, whose childish beauty and guilelessness, perhaps spoke to his father's heart of the orphaned darlings who weep for him at home.

"In this monster's power—tortured, outraged, maddened—lives your countryman, the son of your kingliest house—the generous patriot who fought and fell for you and us all.

"Is this the law? Is this justice.—Who is so brutal here as to defend such barbarity! What partisan of British rule—what representative of British authority—dare stand up in these islands and vindicate this dark, cowardly and hellish persecution.

Does the law of God justify it!—Does the law of man ordain it? Will the people of England sanction it!—Will the people of Ireland endure it?

"You must interfere, and save this man's reason! You must interfere, and save this man's life; for we tell

"We say this advisedly. No human constancy can long withstand the torturing cruelty O'Brien suffers. No bodily strength can triumph over the privations O'Brien endures"

After further appeals to Irishmen to interfere and save O'Brien, the Nation makes the following announcement:—

"These tidings have produced a profound impression in Dublin. They have excited intense indignation. A committee is being formed of men of all parties; and if we have not mistaken Irish hearts, there will be a denunciation that shall ring through the land like a judgement peal—a remonstrance which it will not be prudent for any government to despise, or safe for any government to disobey.

"We hear, indeed, that the Queen of England comes to Ireland again this summer—comes for the ovation that monarchs love from petted slaves. But we warn her and her Ministers, that as surely as she sets foot on Irish soil, while O'Brien is thus tortured and degraded, so surely, wherever she turns, shall his name be thundered in her ears, malediction—so surely shall his blood be flouted in her face. This promise we will see fulfilled."

☞We yesterday saw in the store of one of our merchants an ordinary stone pitcher of two gallons, which is now in use, and has been carried to the pump daily for the last 27 years, by the *same negro*. Any one having a more wonderful curiosity in the "pitcher line," will please inform the editor.—*Savannah Republican.*

The pitcher is doubtless a curiosity; but it is the "same negro" we most admire. The editor appears almost unconscious that he has written prospectively for that poor fellow a proud epitaph.—*Republic.*

The Stockton Times says that three men, in the space of two weeks, took out $30,000 from one hole, at the new diggings four miles above Sonora, besides one lump weighing *five pounds*.

An Irish author commences a narrative thus—"The sun and I rose at sunrise."

CONGRESS.

Washington, Tuesday, June 25.

Senate.—In the Executive session of the Senate yesterday, the nomination of Mr. Lawrence, Minister to England, was confirmed with only five votes in the negative.

Mr. Webster moved the confirmation and advocated it with generous earnestness, and of course voted aye.

A large number of other foreign appointments were discussed at the same time and were also confirmed.

Washington, June 25.

Adjutant General Jones, who has been lying ill here, is now convalescent.

The Republic of this morning suggests that Congress drop at once the whole slavery subject, and proceed with public business.

Washington, June 25.

Mr. Davis, of Mass., presented a petition for a change in the tariff, and argued the necessity and importance of the change, at great length.

Mr. Peirce presented the petition of Miss Dix, asking for appropriation of lands upon which to build institutions for the deaf, dumb and insane.

Mr. Pierce briefly advocated the object and moved its reference to a select committee, which was ordered.

Mr. Davis, of Miss., reported a bill to classify the clerks in the military bureau and to equalize their salaries.

Mr. Rusk introduced a bill to raise two additional regiments of cavalry.

The bill to grant land for the railroad in Mississippi was then taken up.

House.—Mr. Bowlin asked for the business which was on the speaker's table. Objections were made.

Mr. Cobb, of Alabama, moved that the House go into committee of the whole on the State of the Union.

Mr. Burt called for the special order.—The Galphin reports.

The Speaker said that the committee took precedence. Upon which the yeas and nays were ordered.

Mr. Burt moved a call of the House; lost by yeas 82 to 115 nays. Committee carried by 118 to 76.

Mr. Richardson still occupies the speaker's chair.

The consideration of the bounty land bill was then resumed.

Various amendments were proposed and all voted down.

The debate turned somewhat upon the doings of the caucus and its propriety; and great want of harmony is shown.

Full of years our aged and respected friend has gone down to death. Never has it been the writers lot to witness so much fortitude suffering with more patience and resignation. LIGHT! LIGHT!!

The Hard-coarest, Cheapest, and Best Article for Light, is

MARSH'S PATENT OIL!

THIS is a new invention, recently introduced, and now very extensively used by the public.

Mr. Marsh is constantly receiving, (both at home and from abroad,) the very highest testimonials of the true merits and great superiority of his new Oil, over everything before used for light.—Among them we select the following:

Marsh's Patent Oil.—This is the name given to a newly invented Oil, for producing light, which has just been introduced to the public by Mr. Marsh. Having tried it ourselves, we can speak from experience, and do not hesitate to award it a high order of merit. It is entirely free from grease or smell while burning, and is not liable to the two common objection of almost all burning fluids, that of explosion. It gives a beautiful and steady light, is much handsomer than oil, and costs less. For a slight expense, common glass lamps may be fitted with new tubes, and the oil burnt in them.

We recommend a trial to those who would obtain a beautiful light.—[Boston Journal.]

THE ASSAM TEA COMPANY.

136 Greenwich Street, New York.

THE proprietors beg to call the attention of connoisseurs in tea, and the heads of families to the choice and rare selection of TEAS imported by them, and hitherto unknown in this country, which by the fragrance and delicacy, combined with virgin purity and strength, produce an infusion of surpassing richness and flavor.

The teas offered are the following:

The Jeddo Bloom	a Black Tea,	at $1 00	per lb.
" Niphon	do.	" 0 76	"
" Dirai,	do.	" 0 50	"

" Tou-tsien,	do.	" 0 75	"
" Tickitsien,	do.	" 0 56	"
" Ud-li Mixture, a compound of the most rare and choice teas grown on the fertile and genial soil of Assam.		" 1 00	"

With a view to encourage the introduction of these matchless TEAS, it is the intention of the proprietors to distribute by lot, among the purchasers, a quantity of Tea equal to THE FIRST YEAR'S PROFITS on the sale effected. Each purchaser will receive enclosed in the package, a numbered certificate, entitling him to ONE CHANCE IN THE DISTRIBUTION! for every fifty cents, paid out, and on the receipts amounting to $20,000 the undermentioned parcels of Tea, to the value of ten per cent., or two thousand dollars, will be given away as PRIZES, according to the following scale:

TO THE LADIES.

WASHING, BLEACHING AND CLEANSING FLUID, the greatest labor-saving article yet discovered. By its use, washing machines and boards are entirely dispensed with, and not one quarter the labor is required to do the washing of a family.

The Fluid is a chemical compound of sufficient strength to extract all foreign substances from the cloth, by simply boiling a small quantity of it with the clothes, and without the slightest injury to the most delicate fabric.

The expense is not more than that of the soap ordinarily used, and besides this it will be seen that the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, and the use of the pounding barrel, is wholly avoided, and an immense saving is thus made. It is emphatically the female's friend.

DR. CHRISTIE'S GALVANIC BELT, BRACELET NECKLACE

AND

MAGNETIC FLUID.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the Country could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:—

SUSSEX, New Jersey, July 12, 1848.

Dr. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skillful and exceptional men, but here their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief, but this relief was only temporary. Further: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated,* and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties and the performance of those labors in which my soul had ever found the highest of her joys.

But as soon as I learned where to cause, I concluded that the Nervous System must be reached, before any hope could be entertained of my obtaining relief from these most distressing maladies. In the whole pharmacopoeia there seemed to be no remedial agent which could reach and invigorate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION HAS ENTIRELY CEASED TO TROUBLE ME. If time permitted, I could fill an entire sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism returned once since, but not severely, and I have continued in the habit of wearing the Belt, and my bronchial affection now troubles me very lightly. Such is the wonderful and happy result of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with happy results, I believe, in every case.

I am, dear sir, very respectfully yours,
ROBERT W. LANDIS.

DR. CHRISTIE'S GALVANIC NECKLACE

Is used for all complaints affecting the Throat or Head, such as Bronchitis, Inflammation of the Throat, Nervous and Sick Headache, Dizziness of the Head, Neuralgia in the Face, Buzzing or Roaring in the Ears, Deafness, which is generally Nervous, and that distressing complaint called Tic Doloreux.

DR. CHRISTIE'S GALVANIC BRACELETS

Are found of vast service in cases of Convulsions or Fits, Spasmodic Complaints, and General Nervous Affections of the Head and upper extremities. Also in Palsy and Paralysis, and all diseases caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

☞ No trouble or inconvenience attends the use of DR. CHRISTIE'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is highly pleasant and agreeable. They can be sent to any part of the country.

DR. HOOFLAND'S

CELEBRATED GERMAN BITTERS,

Prepared by

DR. C. M. JACKSON,

AT THE GERMAN MEDICINE STORE,

120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS

From "The Weldon Herald," published at Weldon, N. C., January 25, 1850, which said—

"*Patent Medicines.*"

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and vendors of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit, and are in not even for the cause. In this state of things it is hard to tell which are, and which are not worth having. If a person gets one different medicine the first time he purchases, he is very apt to condemn the whole of them and lay no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the efforts of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Noah said, in his "Weekly Messenger," January 6, 1850,

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug*, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Six Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to *female or infant* with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint Dyspepsia.

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., late President of New York Musical Society, now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of no remedies, but suffered the disease to take care of itself, until he was recommended to try Hutchings' Dyspepsia Bitters; he very soon derived benefit from the use of a few bottles of this medicine and now considers himself entirely well.

The undersigned has every confidence in the efficiency of Hutchings' Bitters for the cure of this troublesome and dangerous complaint, and he has no hesitation in recommending it as a most valuable medicine.

THE AGE OF IMPROVEMENT.—One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, Consumptives, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and consecrates, what experience adopts, and nations, what thousands all places unite in saying is good and valuable, is so, no doubt. A popularity of this sort fixes in society its roots so deep and strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men, and the article has taken a stand among the first class discoveries and blessings of the age; and when resorted to in season, eradicates the diseases for which it is recommended.

Dr. H. Macamir, of Tarboro, North Carolina, writes us under date of February 13, 1847, that he has used Dr. Wistar's Balsam of Wild Cherry, in his practice the last eighteen months, and considers it the best preparation of the kind he ever saw, and knows of none so deserving the public patronage.

PREPARED GUANO.

THIS is not an adulteration of the imported Guano, as many suppose, but a compound of eight permanent and well known Fertilizers; decomposed Bone Dust being a component part. It is the production of the closest philosophical research, in the science of Agriculture, aided by practical tests, and not only contains the fertilizing properties of Guano, but in the preparation every nutritive and fertilizing principle that vegetation requires is combined, and, therefore, it supplies every plant with that specific nutriment which it individually needs, and it is so combined, that the Ammonia and other fertilizing gases are absorbed, fixed, and are given out to vegetation only as it requires them. No rot, mildew, worm, fly, nor other insects, can approach it; an important consideration to farmers generally. For Green-house Plants, Flowers, Vines, Wall Fruit, &c., it has no equal. Asparagus, Radishes, Cucumbers, &c., manured with the prepared Guano, will be earlier than by any other fertilizer known. It has received the strongest approbation of the Farmers' Club of New York, and of the Agricultural papers generally throughout the country, but the best recommendation, *is the fact*, that those who have used it for the last two or three years, have largely increased their orders for it the present one, and while it contains all the fertilizing properties of the imported Guano, it is afforded for less than half the price, and taking into consideration labor, is the cheapest manure used.

REMARKABLE CURE

EFFECTED BY DR. CORBETT'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

[From Sophronia W. Badger, wife of Stephen C. Badger, Esq., for many years Clerk of Court of Common Pleas, Merrimack County, N. H.]

"For a number of years past I have been afflicted with Salt Rheum, Dyspepsia, General Debility, and Scrofulous Affections. About fifteen months since, I commenced taking Corbett's Shakers' Sarsaparilla Syrup, and soon realized great benefit therefrom. It is the first medicine I ever found that permanently helped me, and I find that my health and strength are very much improved. I believe this an invaluable remedy for Scrofulous disorders, and most cordially recommend it to all who are afflicted as I have been. My general health is now good, and I attribute my recovery solely to the Shaker Syrup.

DR. CORBET'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

It is an undeniable fact that no medicine ever brought before the public, has proved so beneficial in cases of diseased Blood, Liver Obstruction, Scrofulous Taint, Consumptive Habit, and all cutaneous affections, as that of Dr. Corbet's!

The distinguished Prof. Hayes says:—"It ought to have a preference, as the formula exhibits the union of some of the best of our native medicinal roots and plants with substances of the highest repute as remedial agents, and does not include any *Metallic Compound.*

But read what Druggists say, whose well known character give full assurity to its virtues.

"The Compound Concentrated Syrup of Sarsaparilla, made by the United Society at Canterbury, is prepared with great care, and the increasing demand for it is positive proof of its good effects. It is now prescribed by most of the Physicians in Boston and elsewhere, which is the best evidence that they give it a preference over any other preparation of Sarsaparilla offered to the public.

"Since its introduction, its reputation has been constantly increasing, and its popularity extending in every direction, being recommended by most distinguished physicians.

TRUTH IS MIGHTY AND WILL PREVAIL.

ATHENS, August 24, 1846.

Dear Sir:—Having been afflicted for more than ten months with Chronic Inflammation of the Lungs, at times very severely, and having adopted many medicines without any but temporary relief, I purchased about three bottles of Wistar's Balsam of Wild Cherry, from the effects of which I obtained more relief than from all the medicines I had ever taken for that distressing disorder. I have by the repeated use of this valuable Balsam, been more free from pressure for breath and oppression on the lungs than I had anticipated—and, indeed, conceive that I will be cured by continuing its use, of this most distressing malady. I do most cheerfully tender you this acknowledgement, which you will use as your judgment dictates.
